

THE REALM OF REALITY

The three-masted schooner of Science
sailing uncharted seas of Space
returns with charts and maps:
but there are other seas beyond.

Thinkers of fifty centuries,
intellections of five thousand years,
bold soarings of jet-powered minds
have not found out the secret things

of spaceless Space and timeless Time:
for there:is space - beyond our space
and time beyond our time; eons
reel out beyond eternity.
